Stalling at stops (PCM software, PCV freeze-up): Long past the range (23,000–60,000 mi, the middle half of 14 owner reports)
At this mileage it may already be fixed: we check the records first.
Known weak point for this engine, not a finding on your car. The inspection shows whether yours has early signs.

We'll keep an eye on at each visit

Dropped or loose valve seat (ask for this check at every service) · Exhaust manifold gasket leaks and broken studs (inspect at each service; fix at the first sign) · Oil sludge from long oil-change intervals (ask for this check at every service)

A model-year list, not a VIN check. Repairs are free at a Jeep dealer if open. On a car over 15 years old, ask the dealer whether a newer recall is still repaired free. Check this VIN at nhtsa.gov/recalls.

Recalls: Springfield Auto Care checks this VIN for open recalls. Open recalls are repaired free at a Jeep dealer.

Based on public records and published repair costs. Not a diagnosis or a guarantee. Your technician's inspection decides what your car needs. Confirm recalls with a dealer using your VIN. “If it fails” figures are repair bills reported in public sources or, where none are published, our estimates (each one labeled in the full report); they are not predictions. Open recalls are free at a Jeep dealer (over 15 years old: ask the dealer). Prices are estimates before tax, shop supplies and disposal fees, and may change after inspection. Not a written repair estimate: we confirm the price with you before any work. Data: RepairAhead, 2026-10-27.r1. Not affiliated with FCA US LLC (Stellantis).
