inspection EXAMPLE

☐ Approve

AFM valve lifters and camshaft (tick, misfire, cam damage): Inside the range (90,500–141,400 mi, the middle half of 15 owner reports) · if it fails: $7,500
Oil consumption on AFM engines: Long past the range (GM says it shows from about 30,000–40,000 mi)
The ones long past their range may already be fixed: we check the records first.
Known weak points for this engine, not findings on your car. The inspection shows whether yours has early signs.

Based on public records and published repair costs. Not a diagnosis or a guarantee. Your technician's inspection decides what your car needs. Confirm recalls with a dealer using your VIN. “If it fails” figures are repair bills reported in public sources or, where none are published, our estimates (each one labeled in the full report); they are not predictions. Open recalls are free at a Cadillac dealer (over 15 years old: ask the dealer). Prices are estimates before tax, shop supplies and disposal fees, and may change after inspection. Not a written repair estimate: we confirm the price with you before any work. Data: RepairAhead, 2026-10-28.r1. Not affiliated with General Motors.
